XX series headphones

JVC

The image is a composite of two scenes. On the right, a DJ with short dark hair, wearing sunglasses, a black long-sleeved shirt over a red t-shirt, and multiple beaded necklaces, is shown from the waist up. He is wearing large black JVC XX series headphones with a red cable. He is holding a red and black DJ controller. The background behind him is a wall covered in graffiti and posters, including one that says "VOTE". On the left, a crowd of people is seen from behind, with their hands raised in the air. The scene is illuminated by bright purple and blue laser lights. In the bottom left corner, the text "XX for Club Sound" is displayed in a stylized font. In the top right corner, the JVC logo is visible. In the bottom right corner, the text "XX XTREME XPLOSIONS" is displayed in a stylized font.

XX
for Club Sound

XX
XTREME XPLOSIONS

“Dual Magnet” and “X-Damper”

The New XX for club sound series get responsive bass, tight mid-range and crisp highs
Take it anytime, anywhere on the go.

HA-SBT200X / HA-SR100X

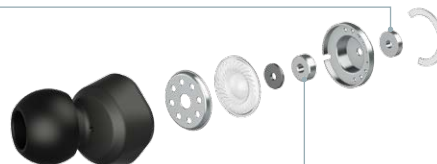

“Dual Magnet”

Pair of magnets on driver unit create optimal magnetic force, reproducing responsive bass, tight mid-range and crisp highs.

“X-Damper”

X-shape damper behind the driver unit minimizes unwanted vibration around the headphones body and generates clear sound for club sound.

JVC's pursuit for the reproduction of original sound quality results in the two types of High-res compatible headphones now.

Natural wood is blessed with superior acoustic characteristics. It features high sound propagation speed and sufficient vibration attenuation, resulting in the high sound definition and clear sound.

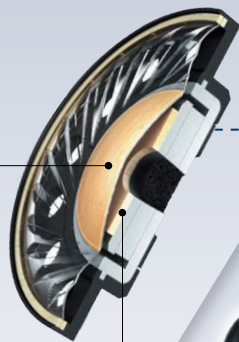

The HA-SHR01 has many parts made of wood, extracting the superiority of the material to maximum.

40mm WOOD dome diaphragm

Designed to give pure and natural sound output

Wood plate to absorb unwanted reflected sound interference

Brass Ring

High Energy Magnet

Acoustic Absorber

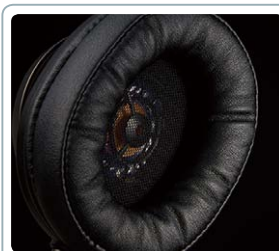

Multi Layered Wood Housing to provide superior support for advanced Driver System

HA-SHR01

High-Res compatible headphones with wood driver

JVC

Wood Diaphragm

Package Design

Concept

Around-ear headphones for High-Res audio with 40mm WOOD DOME UNIT reproducing superior sound, rich/warm presence.

Main Features

- 40mm real wood dome diaphragm for pure and natural sound
- Real wood plate for absorbing/diffusing the reflected sound resulting in higher resolution
- Newly developed “high energy magnetic circuit” with high magnetic flux density over 1T (tesla)
- Multi-layered strong “Wood Housings” construction provides stability and sound with natural expansion
- Detachable L/R isolated grounding cord with anti-vibration jack
- Swivel design and carrying pouch for easy portability

Note

● Availability : Current

HA-SHR02 is adopting Triple Magnets to optimize the magnetic energy, resulting in the high speed response for the sound signal and reproducing the original sound precisely.

The newly-developed PEN diaphragm and Clear Sound Plug achieve high-fidelity and pure sound reproduction.

HA-SHR02

High-Res compatible headphones with triple magnet driver

JVC

Sequential Twin Enclosure

Package Design

Concept

On-ear headphones designed to reproduce the wide range and balanced Hi-Res sound

Main Features

- “Sequential Twin Enclosure” deploying the special cavity for middle/high frequencies optimizes the balance of frequencies for the wide and flat High-Res sound reproduction
- High-Strength and light weight PEN diaphragm
- Triple Magnets for crisp, clear sound reproduction in high definition
- Clear Sound Plug for pure and clear Hi-Res sound playback
- Polyamide material with glass fiber compound to extract maximum detail from Hi-Res audio
- Swivel design and carrying pouch for easy portability
